3)Database designing of SQ Land writings to read procedure, Writing Functions in Database.

**Country Risk management System Technology:**ASP.net

,C#,MVC,SQLServer2014,jQuery,JSON,CSS,HTML5,Bootstrap3.3.6, web API , Ajax,entityFrame work data base first.

Architecture:N-tire

Team Size :5Members.

**Description:**

This Online Application for management of Country Risk with their various factors risk scores, It has complex data analysis and functions to calculate the perfect risk of the country which help us to detect the risk in dealing with those countries.

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Database designing of SQL and writingstoredprocedure,WritingFunctionsin Database.

**2010-01 – 2020-04 Ocean Software Technologies** (To Name few projects are as follows)

## **Senior Software Developer**

**I-Society(Co-OperativeSocietyonline)**

**Technology** :ASP.NET, C#,SQLServer2008R2,JavaScript,JSON,CSS,HTML5, Bootstrap3.3.6,webservices,ADO.NET,Ajax,query.

**Architecture:** N-tire.

**Team Size** :12Members.

**Description:** Online Banking Application for Centralized Accounting and Transactions that will be used by the banks for their many branches. The application that contains HTML reports. The application used for all accounting areas as well as finance sector. It containsall RD,FD, and Pigmy Calculations. The Loan scheme that provided for the customers has been made over there.

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Database designing of SQL and writing stored procedure, Writing Functionsin Database.

**IBank(Co-OperativeSociety)**

**Technology:**ASP.NET,C#

,,SQLServer2008R2,ADO.NET,JavaScript,JSON,CSS,HTML5

**Description:**Online Banking Application for Centralized Accounting and Transactions that will be used by the banks for their many branches.The application contains HTML reports. The application used for all accounting areas as well as finance sector.It containsallRD,FD,and Pigmy Calculations.The Loans scheme that provided for the customers has been made over there.

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Database designing of SQL and writing stored procedure.

**Govt Portal (Maharashtra Govt portal Tiger reserve Tender Management)**

**Technology:**ASP.NET C#

„SQLServer2008R2,ADO.NET,JavaScript,JSON,CSS,HTML5

**Description:** Worked on various government portals where tender system has been implemented, record management and bid system has been implemented with its data analytics

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Database designing of SQL and writing stored procedure.

**Govt Portal (Maharashtra Govt online booking System for Tiger reserve)**

**Technology:** ASP.NET,C#

,,SQLServer2008R2,ADO.NET,JavaScript,JSON,CSS,HTML5

**Description:** Worked on government portals in which jungle safari has to be booked on availability this system has many users to one portal and its working like flash sale of booking in few seconds.

**Responsibilities:**

- 1) Coding of various modules of project.
- 2) Design various reports as per the project needs.
- 3) Database designing of SQL and writing stored procedure.

**Online Exam (Mission Officer Online Test)**

**Technology:** .Net Core Web API,

C#,SQLServer,ADO.NET,JavaScript,JSON,CSS,HTML5

**Description:** Online Exam portal which is useful for enrolment and scheduling of exam of their own choice of product owner or for users , Upto the creation of marksheet and letting end user know whats strong and need to focus on study topics

**Responsibilities:**

- 1) Coding of various modules of project.
- 2) Design various reports as per the project needs.
- 3) Database designing of SQL and writing stored procedure.

**AVG goat farm (this software is like co-operative housing society)**

**Technology** :ASP.NET,SQLServer2008R2,ADO.NET,JavaScript,JSON,CSS,HTML5

**Description** :Online Banking Application for Centralized Accounting and Transactions

that will be used by the banks for their many branches. The application contains HTML

reports. The application used for all accounting areas as well as finance sector. It containsall RD,FD,and Pigmy Calculations. The Loan scheme that provided for the customers has been made over there.

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Designing of SQL and writing stored procedure.

**WatchBeyond (E-commerce For Specifically all Watches/Spectacle/ brands)**

**Technology** :.Net Core WebApi,SQLServer2016,ADO.NET,Angular 6,JSON,CSS,HTML5,Entity framework

**Description** :E-Commerce Portal for mainly watches /spectacles and various products,it has shopping cart facility by browsing product and can online purchase at customer end and admin can process the order and manage the price and products from the admin portal

**Responsibilities:**

- 1)Coding of various modules of project.
- 2)Design various reports as per the project needs.
- 3)Designing of SQL and writing stored procedure.

Qualification	Name of Institue	Board	Year of Passing	Percentage
Diploma in Computer Engg.	Late Vasantdada Polytechnic College	MSBTE	2007	57.44
S.S.C.	C P & Berar School Nagpur	MH Board	2000	48.26

## Technical Skills

**Operating systems** : Windows7/10

**Technology** : Asp.Net ,.Net core,Asp.NetMVC.

**Languages** : C#.

**DBMS** : Sql-server2008R2,2012,2014.

**WebDevelopment** : HTML,Javascript,Ajax,WebAPI,WebServices,json, Angular 6,JQuery, bootstrap, EntityFramework,Linq,WCF.

**Methodology** : Agile Scrum & Waterflow  
GIT(CI-CD) Azure Devops

## Highlights

### Highlights

Good experience in developing and supporting applications in Asp.net using C# ,Angular 6,Jquery

SQL server 2008 R2 & 2012, 2014.

Good Analytical and Debugging skills.

Highly capable of learning quickly and delivering quickly.

Ability to workin tight schedules and on different applications concurrently.

An effective communicator with good relationship management skills with the ☐  
ability tolerate to people at any level of business.

A good team member,flexible and excellent in verbal and written communication ☐  
skills. ☐

☐
